Disappointing

The great disappointment in the 1939 wheat crop in Southern Alberta may be explained by the fact that we believed it impossible to get five to nine inches of rain in June and not, as a result, raise a bumper crop. We thought at the first of July it was impossible to keep from producing a bumper crop, but we have sadly learned that there are some kinds of weather we can have in Alberta about which we previously knew nothing.

The facts are that we had one of the wettest months of June on record, but it came after a May in which we had only half the normal rainfall, and it was followed by a July which was almost the driest on record. Under the circumstances, therefore, the crop damage is explainable, but that makes it none the less disappointing.

CANADIANA

Far Off Fields

Calgary—Canadians would be well advised to stay in Canada, according to Dr. C. W. Banks, former Calgarian and now assistant professor of surgery at New York's Bellevue Hospital.

Describing conditions in the United States, Dr. Banks said many Americans looked longingly at Canada where the pace was not so hectic.

"I think that Americans are more enthusiastic about Canada than many of us are," he said. "They admire Canadian stability and see opportunities for a great future."

One To Go

Ottawa—Indications that efforts will be made to retain Lord Tweedsmuir as Governor General for a second term after November 1940 was given recently by Prime Minister King.

"I have been very happy to have Lord Tweedsmuir here and would like to see him stay for another term," the prime minister said.

Lord Tweedsmuir is Canada's 15th governor general, none of which has served a second term. Although the appointment is "at pleasure" the term of the governor general is accepted as four or five years. Cash salary, paid by the Dominion Government is \$50,000 per year.

Price Control

Victoria—British Columbia government ordered a reduction of three cents per gallon in wholesale gasoline prices and fixed the price spread between wholesale and retail prices at five to six cents. Vancouver motorists now buy standard gasoline at 27 cents a gallon, including a seven cent provincial tax.

Good Business

Chatham—A meteor broke from the sky over this quiet little city last July 11. A farmer found a piece of it weighing 88 pounds. He sold it to Dr. Luke Smith for \$4.00.

Now two Ontario universities are trying to buy it from Dr. Luke. They have offered him \$2.00 for the fragment but he isn't interested.

"They want to get it for nothing," the cannery doctor stated. "I won't let it go for \$200. I have been offered four times that much by the University of Pennsylvania."

New Agreement Pending

Edmonton—Regulations governing the licences of trailers have been suspended, it was announced by Hon. W. A. Fallow. Negotiations are being held between the railways and oil companies which, he believed, "may have a far-reaching effect on highway transportation."

"Nothing further will be done in the matter until the whole situation has been reviewed to determine what the changes will involve," the minister stated.

Financial Efficiency

Ottawa—Three "bona fides" amounting to \$28,000,000 will be refunded by the Dominion Government this fall. This brings the public debt refunded this year to \$110,200,000.

In May of this year, \$85,200,000 of Canada's debt was refunded and \$50,000,000 of new debt was added in the one operation.

To Be or Not

Ottawa—Although a writ has been issued for a by-election in Calgary West on September 25, Prime Minister King said he has reached no decision on the date of a general election.

"As long as the situation in Europe continues as it is, I don't think we would be justified in dissolving Parliament," declared Mr. King. "Whether there will be an election this year or not I can not say, because I have not decided."

"I am," continued the prime minister, "keeping in mind European conditions and also the views expressed in many quarters that the government has the confidence of the people."

NAVY LEAGUE OF CANADA DOES VERY VALUABLE WORK FOR RECRUITING NAVALY

First: To make all our people understand our dependence on the sea as a nation.

Second: To have Canadian trade carried in Canadian ships manned by Canadian seamen.

Third: To guard our seamen and their dependents from molestation.

Fourth: To have an adequate naval defence for Canadian commerce.

A Sea Cadets Corps Unit offering sea training and the honour of wearing a naval uniform, is most attractive to the Canadian boy, and whether he adopts a marine career or not he learns in the Sea Cadets, habits of

discipline, duty, self-respect and self reliance which will make him by sea or by land, a good citizen, and worthy of his great inheritance in the British Empire.

All will agree that Canada must develop upon the sea as well as upon land, if prosperity is to be secure and if peace is to be ours.

All realize that our prosperity in years to come must rest largely upon the establishment and extension of trade with other countries, and that trade by Canadian ships, manned by Canadian crews is the most acceptable means of creating and maintaining that traffic.

All of us are anxious to see Canada co-operate with Great Britain and the other Dominions of the British

Empire in the development and protection of great sea industries.

Canada's objective is that she should be recognized as a method of national policy in dealing with other nations, and that all international relations of whatever kind should be settled with pacific means.

The following are the things for which we have to fight in Canada.

We have to protect our soil, our foreign trade and foreign policy, the Commonwealth of Nations, the League of Nations and help to make the world safe for democracy.

To remember our special gratitude that we owe to those who gave their lives in the Great War for Civilization.

To emphasize the need of human

To See Ourselves as Others See Us."—Burns.

Provincial Politics

IT SEEMS TO BE A Popular political argument all over Alberta that the people are "so fed up on the old line parties" that they do not want to have anything to do with them. And yet, Albertans have had less to do with the old line parties in recent years than in any other province in the Dominion. Alberta has not had a Liberal Government for eighteen years, and it has never had a Conservative Government. Many of those who advance the argument were too young to remember any government before the U.F.A. administration, or were not born when the Liberal Government was defeated.

The party system of government has proven to be a good system, and it was owing to the party system that the British Government became a model for the whole world. It is unfortunate at times that minor inconsistencies creep into the party system, but experience has proven that a strong party government and a strong opposition both work for the welfare of the country. History tells the story of the advantages of the party system, and there is little need to dwell at length on them in these columns.

But although the system may be all right, parties grow old and set in their ways, and sometimes fail to see minor changes which would cleanse themselves inwardly and which would be beneficial to themselves and the people. They need an occasional dose of salts as it were. They themselves are often to blame when the party turn against them.

The Gazette does not hold that great changes are necessary either in party ranks or in government, but certain changes should be made.

So far as Alberta is concerned, we see no reason why this province should not be able to form a responsible government without being married to either one of the old line parties. It seems regrettable that provinces do not function more, on the lines of glorified county councils than under the present system where each has its own little parliament and where each province seems to think that it is a nation by itself. Ontario and Quebec are being run by the nation as a whole and as the wealth to which the whole nation contributes drifts east, these provinces are in a position to hog revenue which rightly belongs to the nation as a whole. Westerners in their cry for autonomy play into their hands, and it is regrettable that such matters as natural resources, education, or any of the matters which can be handled just as well by the Dominion government, should ever pass into the hands of the provinces; but even if westerners were willing to give up their provincial rights, the east never will. Such being the case, it may be unfortunate that we have not the power to control our own immigration, to erect a tariff wall, as such powers would be strong argument in favor of making Canada a Nation instead of a collection of "United States of Canada," cursed as it is today with unreasonable "provincial rights."

Hepburn, Duplessis, Abernethy and Patullo in many ways seem to be "Birds of a Feather" tied together by Dominion bonds only some of which they would like to break. They want the advantages that are to be had by their provinces being parts of a Dominion, not—MacLeod Gazette.

plus the advantages which would be theirs if their provinces were.

Nazi and Human Beings

WE HEAR MUCH of what Hitler has "done for Germany." We hear less of what he has done to Germany. To German human beings.

What he has done to German human beings is disclosed in part by an analysis which the New York Times has made of German vital statistics. Thus:

Since Hitler came to power in 1933 cases of diphtheria and scarlet fever have virtually doubled, of spinal meningitis actually tripled. Food-poisoning cases increased from 1,565 in 1933 to 3,674 in 1937. Death rates between the ages of one and five went up 12.5 per cent for girls and 20 per cent for boys between the years 1932 and 1936.

Said Goering: "We must have more cannon and less butter." They have had more cannon and less butter, and with the cannon they have had a population in physical decay, more starved children and more children's coffins. When one adds the spiritual degradation of the people, the chain on their minds and consciences, the brutal suppression of anything like free thought, the regimenting of a whole nation behind the chariot of war, the real measure is had of what Adolf Hitler has done for—and to—Germany—Ottawa Journal.

Belongs to the Farmers

THE EASTERN IRRIGATION DISTRICT belongs to the farmers under the E.I.D. ditch.

That fact should always be kept in mind when considering the Alberta Government's relationship to the project.

Had the Canadian Pacific Railway, which spent millions of dollars to build the dams and ditches required to water the Eastern project wished to make the E.I.D. an Alberta Government project it would have given the structures and the canals and the lands there under to the government. The fact that it did not do so is the best evidence that it was intended that the farmer owners of the lands under the ditch should run their own show with as little governmental control or regulation as possible.

It is to be hoped that the E.I.D. is now out of politics for all time, and that the farmer-owners will be left to run their affairs as their own good intelligence dictates.—Lethbridge Herald.

brotherhood in the world of today and the senseless cruelty of war.

We all this sacrifice as made by our sons and daughters in vain Peace and freedom for our people and for all people, are impossible through neglect of whatever kind should be settled with pacific means.

To stress the need of loyalty by all our citizens, of law and order, avoiding extremes of opinion as sound judgment depends entirely upon the sound public opinion of all our citizens, who must function in a democratic state.

To emphasize that the generation of which you are an integral part must resolve to re-establish once more a dual citizenship, one citizen ship and commonwealth with your God.

The Post's Corner

WHAT IS HOME WITHOUT A MOTHER?

"What is home without a mother?
Ask the ladies, they all know
Of the poor vacation husbands
Living in blissful
See them walking in their gardens
Gloomy, downcast, sad and lone
Morose and miserable and ugly,
Like a dog who's lost his bone."

See, dad, as the dear wife's leaving
With the kiddies on the train,
"I can manage fine, old sweetheart,
[That is—] till you're back again."
Then he waves his hand so lightly,
As the train speeds on its way,
Does a two-step on the platform,
Letting freedom have its play.

For several nights things are just
lovely.
Joy and Harry go to Lodge,
Stop at Jack's house after session;
Bill at this time to meet Dodge.
[They spend a quiet little evening
Talking over single days.
These dear days now pass forever,
Happy, glorious, single days.

Next night they go out to Charlie's.
[Talk again of things they've done:
Bill's the next night, then to Harry's.
"All we have," says he, "is fun!"
Stating dear old Jeanne lives,
Not forgetting Adeline,
Roaring out with extra gusto
"Darling, now for I pine."

Next time they go round to Bill's
Do it with a new and different view,
And also feeling grumpy,
Red and others join the crew.
Then again they are convivial,
Recklessness it sure is great,
But that worrying morning after
Always comes as sure as fate.

See them eating at the cafe,
After, say, a week or two,
Every bit of food is choking,
All of them are feeling low.
"Gee, you know, I miss the Miesus,"
Bill remarks in accents low,
As he fondly pets the dog's head,
And the dog he seems to know.

Parties now have grown famer,
Not just what they used to be:
The hubbub now meet one another,
And its very plain to see
That their company is not fully
They can't sing Sweet Adeline,
Just "A warden" for you stuff,
Smile through and Sweetheart

Mie.
Dirty dishes hit the ceiling,
Chairs and couches out of place,
Broken crackers, earlides, etc. ends,
For a home life in a case.
Babe and Marie's wife left them,
Gardner plots are going dry,
Dirty clothes in every corner,
Crusts and ends of some state's pie.

Hobby now recovers a wire,
"Wife and kids are coming home,"
He lets out a wild old "Whoop!"
Never more he'll let them roam.
Once again he's on the platform,
Dancing once again with joy,
But because they're coming back,
Oh boy!

House has all been swept and tidied,
Cost five dollars, but what of that?
No more nights of wondrous parties,
None playing three queens at.
"What is home without a mother?"
Say, boy, don't be such a ham,
Home without Bessie and Kiddie,
Isn't worth Bessie Dan.

—Skeek—

NO SHOW REVEALED

TO ASTOUND CROWDS

Hogging Bros. and Bassano & Bailey
Cross Air Conditioned and Liberal
of Times With Nightly Features

The Big Show—Hogging Bros.
and Bassano & Bailey—moving on
four long railroad trains and carrying
1600 people, 50 elephants, 1000
monstrous animals, hundreds of horses,
and Giraffes the Great, world's largest,
stand most ferocious captive gorilla,
now displayed for close-up views
in a magnificent cage, on display in
CALGARY-THEATRE, ATG, 15th
with its huge big top air-conditioned
and recycled in rainbow hues.

Twenty two air conditioning
units installed at intervals around
the circumference of the world's largest
tent, make it comfortable for the
thousands who attend the big show.
Dresses and gold tassels, night
silver poles make the interior scene
thing new under the circus sun.

The new inaugural spectacle
produced by Charles Le Maire, former
designer for the Ziegfeld Follies, is a
believable wonder. It is titled:
"THE WORLD COMES TO THE
WORLD'S FAIR" and 2000 people
and animals take part in its enactment.

Terrel Jacobs, renowned trainer
er, presents the largest group of
performing wild animals ever assembled
in America—1000 horses and
tigers in an amazing display.

Dorothy Herbert, madcap rider of
racing and fire-burbling horses, back
from Europe, triumphs in a great
number with 70 girl riders, on 70 Kentucky
high school horses, all four
year olds.

Under a blue big top ceiling, light-
ed as for a big New York musical
show, the displays of The Greatest
Show on Earth surpass all the massed
attractions of former years.

There is a heavier contingent of
stallions. European feature with the
circus than ever before, for John
Ringing North, its president, squired
the Continent with an open purse last
winter. The more important newly
imported attractions are: the Great
Arturo, breath-taking daredevil and
come of the high wire; the Pileado,
astonishing leaper over elephants
and camels; the Zerkibis, the Or-
fians and Pileado, Europe's greatest
teeterboard somersaulting acrobat;
